1.General Information-

03/01/2012-SEE IMPORTANT RECALL INFORMATION IN THE ADDENDUM SECTION OF THIS CONTRACT

PLEASE READ THE ENTIRE CONTRACT BEFORE ORDERING TIRES-

Each group listed in the contract contains the contractor's full line of tires for that specific group. Furthermore, it should be mentioned that the most commonly used tires should be available locally thereby reducing inventory and storage needs.

The using agency is to notify the contractor promptly regarding any claims for unsatisfactory performance or tire failures which appear to be caused from defective materials or workmanship. If satisfactory adjustment cannot be obtained from the contractor, the Division of Purchase and Contract should be notified.

The Division of Purchase and Contract requests immediate notification in writing of any dissatisfaction or problems encountered. Complaint to vendor form <http://www.pandc.nc.gov/documents/vendcom.doc>

The proper choice is very important for safety, performance, and tread life. Be sure to contact the contractor(s) or dealers so that you select the right tire for your particular application, whether it be highway, on or off the road, mud and snow, etc., as well as the right tread design. One of the provisions of this contract is for the successful bidder to provide technical advice. Please make use of this if you have any questions. Names, addresses, and phone numbers are shown herein.

Since some categories are dual award, before ordering tires, agencies should consider at a minimum; application of tires, tire size (including tread depth) availability, prices, delivery and service locations.
