No worries, though; you don't have to smell that odor all day. Just simmer a pan of vinegar on the stove while making such foods. The vinegar smell goes away quickly, taking with it any other odors. All that's left is the smell of yummy."

• Those hide-a-key rocks can be a little obvious — at least they are to me. I have a spare key hidden outside too, but I sealed mine in a plastic baggie and buried it in a spot known only to our family members. Also, it's not right by the door. — I.E. in Mississippi

• Wash bath towels in cold water. It preserves color and still cleans them well. And for smaller dryer loads, add a clean, dry bath towel to speed up drying time.

Strange But True
by Samantha Weaver

- It was 20th-century American critic John Leonard who made the following sage observation: "To be capable of embarrassment is the beginning of moral consciousness. Honor grows from qualms."
 - You've probably never heard of the Spanish village of Lijar, located in the south of that country. This village, though, was involved in a nearly 100-year war that lasted well into the 20th century. It seems that in 1883, Alfonso XII, the king of Spain, made a state visit to Paris and received a less-than-royal welcome. Led by mayor Don Miguel Garcia Saez, the citizens of Lijar, after hearing that their monarch had been insulted and possible accosted by mobs, declared war on France. Though there were no casualties — not even any gunfire — the war lasted until 1981. That was when the town council ruled that it would end hostilities with France thanks to the warm welcome King Juan Carlos of Spain received in France in 1976.
 - The town of Adamant, Vermont, was once named Sodom. The townspeople voted to change the name in 1905.
 - You probably know that the iconic film "Rocky" starred Sylvester Stallone in the leading role, but you might not be aware of the fact that he wrote the script, as well. The sale of the rights to the script came just in time; he had a total of \$106 in his bank account and was trying to sell his dog for lack of the means to feed it.
 - The first portable computer was made available to the public in 1975. In this instance, however, "portable" was used as a relative term; the IBM 5100 weighed 55 pounds.
 - Only 5% of American men report that they feel satisfied with their looks. With women, it's only 1%.
 - Madame Tussaud started creating her famous wax figures in 1777 and created many models during the French Revolution. She traveled around Europe displaying wax figures (both the ones she created and ones she inherited from her mentor), and she opened her first museum in London in 1831. Today there are branches located in the United Kingdom, Amsterdam, Hong Kong, Shanghai, Vienna, Moscow, Bangkok, Dubai, Berlin and Hamburg, plus five U.S. locations. It's appropriate that there are more locations in America than in any other country, since so many Hollywood celebrities are recreated in the museums. In fact, in 2006, Shiloh, Brad Pitt and Angelina Jolie's baby, became the first infant to be memorialized in wax for Madame Tussauds.
 - In the winter of 1932, Niagara Falls froze solid.
 - It's not clear why, but a duck's quack doesn't create echoes.
 - In 2008, a study was conducted in the United Kingdom to determine what, if any, effect the consumption of tomatoes had on the human body's reaction to sun exposure. The university students enrolled in the study who consumed the equivalent of about five tomatoes per day were 33 percent less likely to get sunburned than those who ate no tomatoes.

 2. "Johnny Loves Me," released in 1962 on her "The Things We Did Last Summer" album. It only reached No. 21 on the charts.
 3. The Four Seasons, in 1975. Legend says the song was originally to be about Prohibition ending in 1933.

 5. Lipps Inc. (pronounced "lip sync") scored No. 1 status all around the world with "Funkytown," sometimes on multiple charts.
 6. Alannah Myles. It's said the song is about Elvis Presley and his many images being painted on black velvet. It charted around the world.
 7. The Allman Brothers. The album version was seven minutes, but it was stretched to 13 minutes on the live "At Fillmore East" double album.
 8. The Scottish group Average White Band, in 1974. The song went to No. 5 on the R&B charts, too.

- If you have an ink stain on fabric, try blotting it with hairspray. Saturate the ink spot with hairspray, and blot using a clean white cloth or non-decorated paper towel. Repeat until all the ink is gone. Make sure you test on an inconspicuous area first.
- Need your nails to dry in a hurry? Use the cool setting on your hair dryer. It works really fast. — L.E. in Georgia

- "To remove the skin from salmon, I freeze it and skin it while frozen. The skin comes off much easier, and I waste less of the fish. I buy a large piece and parcel it into several smaller pieces, since it's just me. I like salmon, and it's healthy for me!" — L.A. in Florida

Presents: GREATER TUNA

directed by Peggy Hanna

Feb. 10, 11, 17, 18, 24, & 25 • 7:30pm

Feb. 12, 19, & 26 • 2pm

Reservations: 724 654-3437

Mon.-Fri.: 9am-4pm • Tickets: \$12

Greater Tuna is the hilarious comedy about Texas' third smallest town, where the Lion's Club is too liberal and Patsy Cline never dies. The eclectic band of citizens that make up this town are portrayed by only two performers, making this satire on life in rural America even more delightful as they depict all of the inhabitants of Tuna - men, women, children, and animals. The citizens of Tuna parade across the stage in all their outrageous and irreverent glory, commenting on life, politics, and what makes them (and sometimes us) tick.

"And God said, 'Let there be lights in the expanse of the sky to separate the day from the night, and let them serve as signs to mark seasons and days and years, and let them be lights in the expanse of the sky to give light on the earth.' And it was so. God made two great lights—the greater light to govern the day and the lesser light to govern the night. He also made the stars. God set them in the expanse of the sky to give light on the earth, to govern the day and the night, and to separate light from darkness. And God saw that it was good. And there was evening, and there was morning—the fourth day."

Quotes by James Madison - 4th President of the U.S.A.

The proposed Constitution is, in strictness, neither a national nor a federal constitution; but a composition of both.

The Constitution preserves the advantage of being armed which Americans possess over the people of almost every other nation where the governments are afraid to trust the people with arms.

The Constitution of the United States was created by the people of the United States composing the respective states, who alone had the right.

Do not separate text from historical background. If you do, you will have perverted and subverted the Constitution, which can only end in a distorted... form of illegitimate government.

Our Daily Bread

WHAT DOES IT TAKE?

Read: Genesis 2:1-7

Six days you shall do your work, and on the seventh day you shall rest. —Exodus 23:12

Today's technology allows some people to work 24/7. We can bring our work home or take it on vacation. Work is ever-present with us—except when the electricity goes off.

An ice storm last winter covered several states in a thick glasslike glaze. Trees and branches fell, blocking roads and keeping people home. Power lines fell, leaving people in cold darkness, unable to accomplish anything that required electricity.

Whenever something like this interrupts my life, I realize how important my own work is to me. Without it, I feel unimportant, unproductive, and useless. But God doesn't want work to be that important to us, and we shouldn't need a power outage to get us to stop. In the Old Testament, God had a plan for getting His people to stop and pay attention to Him. It was called Sabbath. On the seventh day of the week, they were to stop their work (Ex. 23:12). Although New Testament believers aren't required to keep this law, rest is still important. Practicing a day of rest can keep us from the faulty belief that our work is more important than God's.

What does it take to make you stop and pay attention to God?

*He gives me work that I may seek His rest,
He gives me strength to meet the hardest test;
And as I walk in providential grace,
I find that joy goes with me, at God's pace.*

—Gustafson

If we do not come apart and rest awhile, we may just plain come apart. —Havner

LESSONS (Continued from last week)
A new project that I saw the other day requires
you to buy a frame about 10" high, and depend-
ing on who this gift is for, about 16" to 38" long.
Let's say the gift is for Bill CONKLE. Your project
is to go out and photograph each letter you
need. You will need a picture of a C, then a shot
of an O, and so on.
Once you have all your letters or all your pho-
tos, which can be color or black and white, mount
them or just glue them on the background of your
frame. Bingo! There's your gift. A longer name
will require a bigger frame, but it all works the
same.
As I was writing this, someone just came in
with a camera they had bought on the internet.
It came yesterday and they dropped it today. It
did not have a maker's name on it, like Canon or
Nikon, nor did they seem to know what features
the camera had. All he knew was it cost \$150. So
what he had now was a piece of junk and no way
to get it fixed.
If I didn't write this, now's the time. Happy New
Year!
